

# Roots & Waves

19 June (6pm) - 21 June (10am)

The power of connection with ourselves as part of nature

Honouring the visible and the invisible

The power of rituals and the connection with the ancestors

The healing power of music, rhythm and silence individually and in groups.

In greeting the Sea  
we speak to our Origin  
the echo of that respect  
will return to us  
in the times to come

In greeting our Origin  
We connect with our roots.  
Honouring this presence  
nourishes our essence.  
Fuelling our lives.

There at the source the water is the clearest  
At the oasis the shadow the coolest  
In silence the message the highest  
From your dream the force the strongest
